# Vintage Rose Nails

This simple floral print nail art design will surely bring a vintage look to any outfit!

1. Start by painting your nails with a nude beige nail polish.
2. Using a small nail art brush, create a few circles on each nail. The circles don't need to be perfect.
3. Using a thinner brush and a dark red nail polish, carefully outline each rose, then do several smaller C-shapes within the circle to suggest petals.
4. Using the same thin brush and a dark green nail polish, lay the brush down on your nail to make oval-shaped leaves around each rose.
5. Using the same thin brush and a lighter green nail polish, add some details to the leaves.
6. Finally, apply a top coat to your nails to seal in the design.
