

## EasySell Fulfillment Fees

An even easier way to use Fulfillment by Amazon!

With EasySell, your media products are sold on Amazon.com and fulfilled using Amazon's world-class fulfillment process. No more running to the post office for every order—just send your media to us and we'll take care of the rest.

Not only is it easier to sell, it's easier to figure out how much EasySell will cost you. Use the chart below to calculate your EasySell fulfillment fees.

(The following rates apply to individual sellers. Pro Merchants should see FBA Program Fees.)

### Step 1 - Determine Unit Size

**Standard or Oversize** – EasySell is only available for media units, which include books, music, software, video games and videos (DVD, VHS). Your item is considered Oversize when it is greater than 18" long x 14" wide x 8" high or weighs 20 pounds or more.

### Step 2 - Calculate Fulfillment Fee<sup>1</sup>

**A Pick & Pack** – A fee is applied to each unit in your fulfillment order. If a unit has a retail price less than \$25.00, use the corresponding row for that unit. If the unit has a retail price of \$25 or greater, use the corresponding row for that unit.

**B Weight Handling** – Multiply the total weight of each individual unit in your fulfillment order by \$0.40. The weight of any fulfillment order will be the sum of the individual weights of each unit in your shipment, rounded to the nearest tenth of a pound.

**TOTAL** – The sum of A and B is the fulfillment fee.

### Step 3 - Inventory Storage<sup>2</sup>

You pay nothing for storage for the first 60 days! If after 60 days, you still have inventory with Amazon, you have the option of converting to Fulfilled by Amazon and pay FBA storage fees or have Amazon dispose of your items.

#### Calculate Fulfillment Fee

The total fee to process a fulfillment order =  
Per Unit + Per Pound

#### A Pick & Pack

Per Unit	Standard	Oversize
Units priced under \$25	\$1.00	\$6.00
Units priced \$25 and greater	\$2.00	\$6.00

#### B Weight Handling

	Standard	Oversize
Per Pound	\$.40	\$.40

1 - Amazon.com Fulfillment rates apply to orders that are placed on Amazon.com and qualify for shipping promotions and customer service, as detailed in the Fulfillment by Amazon Agreement. Any applicable selling fees still apply.

#### Inventory Storage

This fee is assessed to every unit in Amazon's warehouse effective 60 days after listing. (**Note:** Effective Jan. 2008)

#### Monthly Storage (per cubic foot)

First 60 days	\$.00 / cubic foot per month
January through September	\$.45 / cubic foot per month
October through December	\$.60 / cubic foot per month

2 - The cubic feet of any Unit will be based on the Unit's size as properly packaged and ready for shipment to customers in accordance with the Guidelines. Amazon will be entitled to make its own measurement of the cubic feet of any packaged unit or representative sample thereof, and in the event of any conflict between such measurement and information provided by Seller, Amazon's measurement will govern.

These fees apply only to individual sellers using Fulfillment by Amazon.  
Pro Merchants using Fulfillment by Amazon, see [Fulfillment by Amazon Program Fees and Rates](#).  
EasySell rates are only available to individual (non Pro-Merchant) Amazon sellers.
