YUPIX LED Indicator

Following are the various LED indications of YUPIX.

LED Status	What it means
Power ON (1 sec)	White
Charging	Red
Printing	White Flickering
F/W Upgrade	Pink Flickering
No Cartridge/ Low Battery/ Battery Empty	Red Flickering
Error (Paper Jam etc.)	Red Flickering
Waiting / Cooling	White
Charging Complete	Green

Important Notes:

- The Photo Paper will go in and out 4 times (YMCO, Yellow, Magenta, Cyan, Overcoating).
- Do not touch or pull the paper out during printing.
- Do not place any object in front of the paper exit slot.
- Use the latest YUPIX application for best print quality. Check the latest app version from Play Store and/or Appstore.
- YUPIX Printer has Built-in Battery. Charge the printer before using.
- Handle with care during charging to prevent electric

shock.

- Do not disassemble or deform.
- If NFC tag is not read, check its position on the printer and smartphone. Then try again.
- The higher resolution the image has, the higher quality the printed photo has. Recommended image size is 1280*2448 pixel.
- Do not use harsh chemicals, cleaning solvents, or strong detergents to clean the device. Only use a soft, clean, dry cloth to clean the surface of the device
- Operating Temperature : 0 ~ 40°C.

Troubleshooting

Symptoms	Cause/Solution
Paper Jam	Power off and Power On again. Paper will be automatically ejected If not, please contact customer service.
Image quality is not good.	Print quality could be less if your photo source has low resolution. Over 1280 x 2448 pixel is recommended for best image quality.
Printer is not responding	Press the Reset button with sharp tool like pin.
